# Distance Educator- Training Educators of Adults in the digital age.

Distance Educator

The Distance Educator project reached a significant milestone with the “Current Status Review Report” publication based on Focus Group Discussions organized in all partner countries.

In the process of creating an online training course and a handbook to help Educators, Vet providers, adult education staff, etc. to adjust and adapt to the new normal caused by the pandemic, a focus group discussion was organized in each partner’s country in the framework of the Distance Educator project. Participants in the focus group discussions included digital literacy experts, educators, vet providers, etc . The discussions focused on current and future needs concerning the Training Educators of Adults in online distance learning

On 12-13/09/22, the second transnational project meeting was hosted in Cyprus.

Next steps:

1. Finalization of the training curriculum
2. Translation of the training material into partners' language
3. Development of the training App
